

SLVYRA Marks and Buoys 2020 Annual Report

It was planned that we would have a 'mark party' in the spring to renew several marks on Lac St Louis but then came Covid and with the shut down of clubs that plan was cut. Existing marks were launched and used perhaps sparingly in the much-shortened season. Hopefully we will be able to complete this this year.

Pierre Charbonneau worked hard at putting together a detailed marks map for Lac des Deux Montagnes but again the Covid lockdown prevented it's printing and distribution. Again hopefully this year will allow completion of this project.

Budget was \$0 last year.

Hopefully this year we will all be able to get out on the water again and enjoy a sailing season.
