

SLVYRA Webmaster's Report 2020-2021

As a result of the Covid-19 pandemic the 2020 AGM was postponed indefinitely and as such no Reports were tabled.

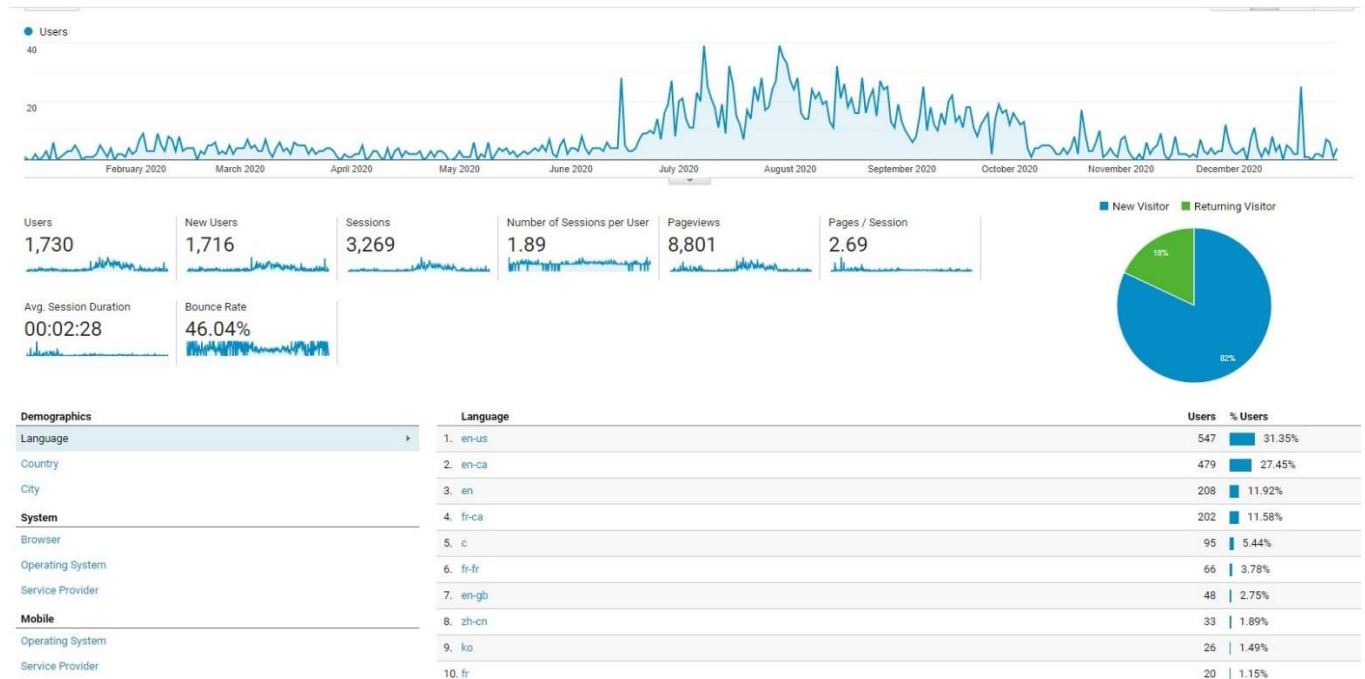

Initially the AGM was postponed with the prospect of a date later into the year, however eventually it was decided to postpone indefinitely.

Working with Jin and Dave the trophies were tracked down and audited. The website was updated with both images and brief histories.

The Good Neighbor Series was rebranded the **Distance Neighbor Series** and evolving Sailing Instructions were posted as soon as they became available.

The Google Calendars were updated by the 'Scheduler' and the 'Results' matrix was created on our website with links on the various dates going to the GNSRacing site that hosts the Sailwave results.

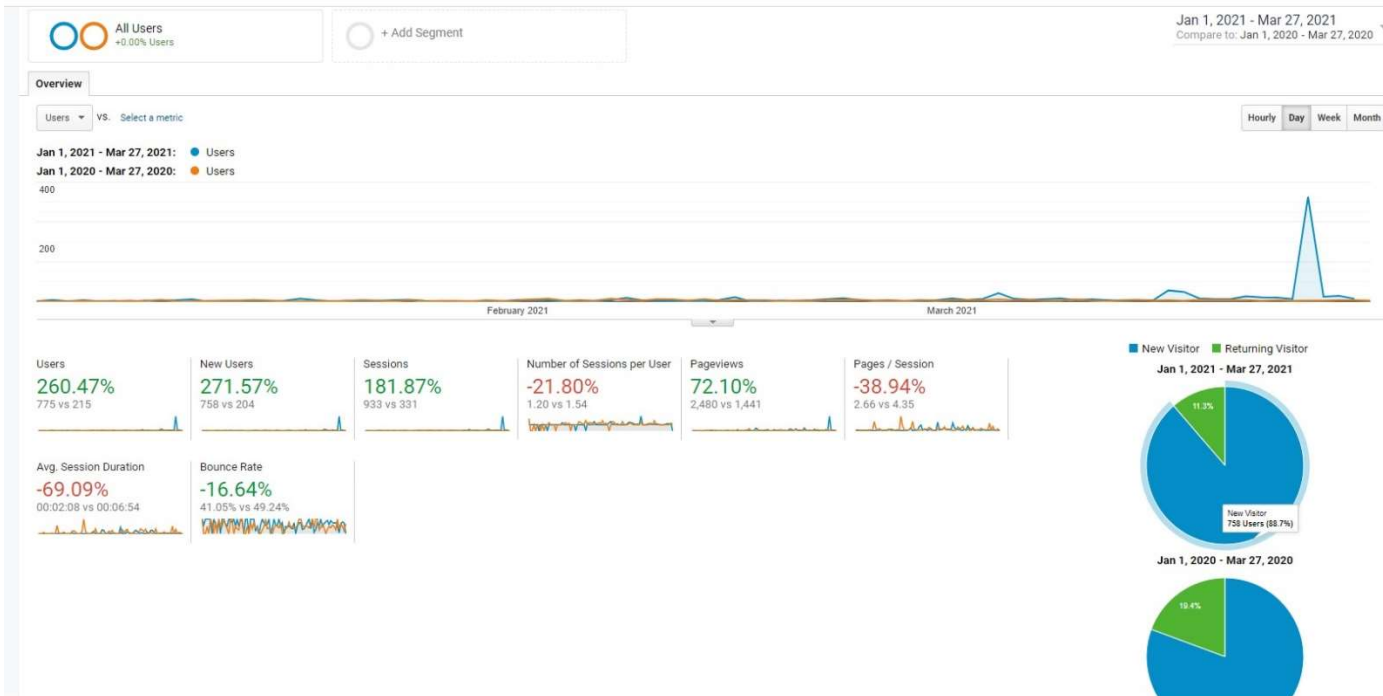

The racing scratch-sheets are key-punched by the Scorer (Wendy Herron) into Sailwave and the generated results are FTPd up to GNSRacing.

As can be seen most of the web traffic was in the summer - typically directed to the Results.

This year has seen a few updates to the landing page along with links to the America's Cup.

Once the various Fleet Captains from the GNS clubs finalized the calendar for the summer the site was updated, it is still however waiting updated Sailing Instructions (SIs).

Traffic shows a distinctive peak as a result of the invitation to the AGM.
